Professional Summary

Full-stack developer with 1+ years of hands-on front-end experience, delivering responsive React/TypeScript interfaces supported by well-structured Node.js APIs. Skilled at integrating REST/GraphQL services, collaborating with designers and backend engineers, and shipping reliable features on schedule. Comfortable owning the full development cycle—from refining requirements to writing automated tests—while keeping code maintainable, accessible, and easy to iterate on.

Technical Skills

Frontend Development

React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Redux, React Query

Backend Development

Node.js, Express,Nest js, REST APIs, GraphQL, PostgreSQL, MongoDB

Professional Experience

Frontend Developer   Aug 2024 – Feb 2025

Beta Cortex Company · Tartus, Syria

- Built pixel-perfect marketing sites and dashboards with HTML, CSS, and vanilla JavaScript to match UX specs across mobile and desktop.
- Delivered cross-browser compatible layouts and accessibility improvements that reduced QA bugs by 30%.
- Partnered closely with UX/UI designers to translate Figma concepts into reusable UI components.
- Iterated quickly with clients, gathering feedback and shipping updates within tight weekly release cycles.

Frontend Developer   Mar 2025 – Present

Realistic Solution Company · Remote, Saudi Arabia

- Develop modern, responsive applications with Next.js, React, Tailwind CSS, and shadcn/ui for enterprise clients.
- Shipped dashboards for expert systems, travel services, and subscription management with secure API integrations.
- Implement reusable UI patterns and state management that speed up feature delivery for new client projects.
- Collaborate with Saudi stakeholders across time zones, leading demos and incorporating feedback into each sprint.

Education

ICT Engineering (Information & Communication Technology)   Graduated 2019
Faculty of Informatics Engineering, Tartus University

Completed a multidisciplinary program covering network systems, embedded electronics, and software engineering fundamentals. Led coursework projects focused on web technologies and telecommunications infrastructure.

Continued Learning & Self-Study

Consistently expand my skill set through online platforms such as W3Schools, GeeksforGeeks, MDN Web Docs, Stack Overflow, and YouTube channels. Focus areas include modern JavaScript, TypeScript, frontend frameworks, and best practices in software craftsmanship.

Notable Projects

Polling System · Next.js, TypeScript, Express, MongoDB
Arabic survey hub with auth'd voting and creator dashboards.

Reservation App · Next.js, NestJS, PostgreSQL
Bilingual booking platform with role-based dashboards.

Health Platform · Next.js, Clerk, MongoDB
Healthcare portal showcasing doctors, services, and bookings.

Blog App · Next.js, Express, MongoDB
Members-only blog with profiles, posts, and moderated comments.

Movie Dashboard · Next.js, Express, MongoDB
Admin suite to curate films and track catalog metrics.

Chat App · Next.js, Zustand, WebSockets
Real-time rooms with personalized dashboards and live messaging.
